Member Albums

Research Aid

Inventories/Images/Member Albums

In 1863, the Society began to collect portraits displayed in six Victorian carte de visite leather albums, as shown below. The albums have brass hinges and show signs they were well used.

The albums contain 586 portraits of Members, Corresponding Members and Honorary Members. While the majority are photographs, some are photographs of other images and some are engravings.

The photographs are listed alphabetically on the following pages. Many are dated, however, we have not verified what the dates indicate. The numbers refer to the location in the album.
